

Varsity IBM iSeries now supports OnTrac

Varsity now supports OnTrac!

Certified by OnTrac, Varsity's OnTrac Carrier Compliance Kit (CCK) delivers all the benefits of OnTrac shipping along with the reliability, throughput and scalability of Varsity.

Varsity Logistics' shipping software is consistently selected by companies of all sizes. Focused on IBM's iSeries platform, Varsity is robust enough to support virtually any shipping volume, through any number of distribution centers.

From order management to carrier invoice auditing, Varsity's software reduces freight expense, increases customer satisfaction, and streamlines shipping processes.

The Varsity Advantage

- 96% customer retention
- Fast ROI, as little as three months
- 24/7 customer support
- 20 years of iSeries experience
- Exclusive focus on the iSeries platform
- Automation for all shipping processes

About OnTrac

If you ship in California, Arizona, Nevada, Oregon, Washington, and Utah you could be saving up to 40%. OnTrac is the regional leader in overnight and time-critical package delivery, and offers the highest level of service at the most competitive rates available in the region.

Our customers operate in time-sensitive environments and can be assured that we understand the importance of every shipment we deliver. OnTrac has a reputation for delivering service excellence and our "can do" attitude is the hallmark of our success.
